

HARSHAL INGALE

Full Stack Software Engineer | MERN Stack | AWS Cloud | DevOps | System Design
Building Scalable SaaS Applications

8080101085 | harshalingale26@gmail.com | linkedin.com/in/harshalingale26 | Navi Mumbai

SUMMARY

Full Stack Software Engineer experienced in building **scalable SaaS applications** across web, mobile, and desktop. Strong expertise in **React.js, React Native, Node.js, Express.js, TypeScript, MongoDB, PostgreSQL, and MySQL**, with hands-on experience in **RESTful APIs, multi-tenant architecture, authentication, database optimization, AWS, Linux, CI/CD, and DevOps**. Focused on building **high-performance, secure, and maintainable software**.

EXPERIENCE

Full Stack Engineer

04/2025 – Present

Precisio Technologies Pvt

- Built production-grade SaaS applications using **React.js, Node.js, Express.js, MongoDB, PostgreSQL, and MySQL**.
- Developed secure RESTful APIs with **JWT authentication, RBAC, refresh token rotation, validation, and centralized error handling**.
- Designed scalable backend architecture, optimized databases and APIs, and improved query performance through **indexing and aggregations**.
- Provisioned and managed **AWS infrastructure**, performed manual application deployments, monitored production environments, and resolved production issues while supporting core DevOps operations.
- Collaborated in Agile teams, contributed to architecture and database design, and maintained **Git workflows, code reviews, and CI/CD pipelines**.

PROJECTS

Enterprise Event Management SaaS Platform

- Developed a multi-tenant enterprise event management platform serving organizers, exhibitors, attendees, and sponsors.
- Developed attendee, exhibitor, sponsor, and registration modules.
- Designed normalized database schema for scalable **multi-tenant architecture**.
- Implemented **JWT Authentication with RBAC** and built QR-based event check-in workflows.
- Integrated **payment integrations** and automated email notifications.
- Optimized API performance and reporting queries and built reusable UI components using React and Tailwind CSS.

CardVault – Business Card Contact Management Platform

- Developed an enterprise SaaS platform for sales teams and event organizers to digitize, organize, and manage business contacts.
- Built a **React Native** mobile application and an OCR processing pipeline using **Google Cloud Vision**.
- Built multi-tenant data isolation and integrated **payment integrations**.
- Implemented analytics dashboards and reporting with export functionality for CSV, Excel, and PDF.

Liberty International Tourism Group – Enterprise Travel Management Platform

- Built booking and travel management modules with secure APIs and backend services.
- Designed relational database schemas and implemented **role-based access control**.
- Developed reporting dashboards and added PDF and Excel export functionality.
- Improved performance through **indexing, caching, and optimized SQL queries**.
- Enhanced backend scalability for enterprise workloads.

TECHNICAL SKILLS

Languages & Frameworks	: JavaScript, TypeScript, Node.js, Express.js, React.js, Next.js, React Native, Electron.js
Databases	: MongoDB, PostgreSQL, MySQL
APIs & Backend	: REST APIs, RBAC, Postman
Cloud & DevOps	: AWS EC2, AWS S3, PM2, Git, GitHub, GitLab, Linux
Frontend & UI	: Tailwind CSS, Bootstrap, Chakra UI, HTML5, CSS3
Integrations	: Google Cloud Vision, Payment Integrations
Tools	: Cursor, Claude, Codex, Antigravity

EDUCATION

Master Of Computer Application (Distance)

08/2025 – Present

Bharati Vidyapeeth

Bachelor of Science in Computer Science

07/2021 – 04/2024

Sanpada College of Commerce and Technology
